# HANDS

Weaving together expressions, inspirations, and elegance. Art that not just adorns but defines the very experience of a space. An experience that stirs the soul and widens the imagination. A gateway to stories, lives, fantasies and promises. A tradition of exquisite artistry and visionary design.

**OVER THE YEARS, HANDS  
HAS BECOME SYNONMOUS  
WITH CRAFTSMANSHIP  
THAT CONSTANTLY  
REDEFINES TIMELESS  
ESSENCE OF LUXURY AND  
INDULGENCE.**

A case symbol of the devotion of our artisans who painstakingly work day and night to elevate carpet making into an art form, our handmade luxury carpets and rugs find true expression in 'art for the floor'.

Every piece is individually produced and handmade in the purest sense to reflect our core values of quality and craftsmanship.

# 1881

The journey of Hands dates back to 1881. A surprise discovery of an artistically gifted carpet weaving community of Bhadohi, a tiny hamlet in the ancient city of Varanasi, by A. Tellery, pioneered the trend of masterfully created handmade carpets in the country. Over the years, Hands has become synonymous with craftsmanship that constantly redefines timeless essence of luxury and indulgence.

A STORY OF WEAVING PERFECTION

# OUR HISTO RY

# OUR PHILOSOPHY

Each Hands carpet is handcrafted by skilled artisans with techniques handed down by generations of carpet makers and refined over the years. Crafted using some of the finest materials sourced from various parts of the world and in India, including fine silks and wool from New Zealand, a Hands carpet lasts for generations.

URBANE II

Cited architecture and urbanism has been the inspiration behind this collection. Urbanism has become synonymous with the world of architecture and geometric designs. The collection explores the influence of contemporary designs in the modern urban society of today. The designs trace elements of the physical structures that inspired them. These carpets bring complex urban sensibilities into the traditional design landscapes.

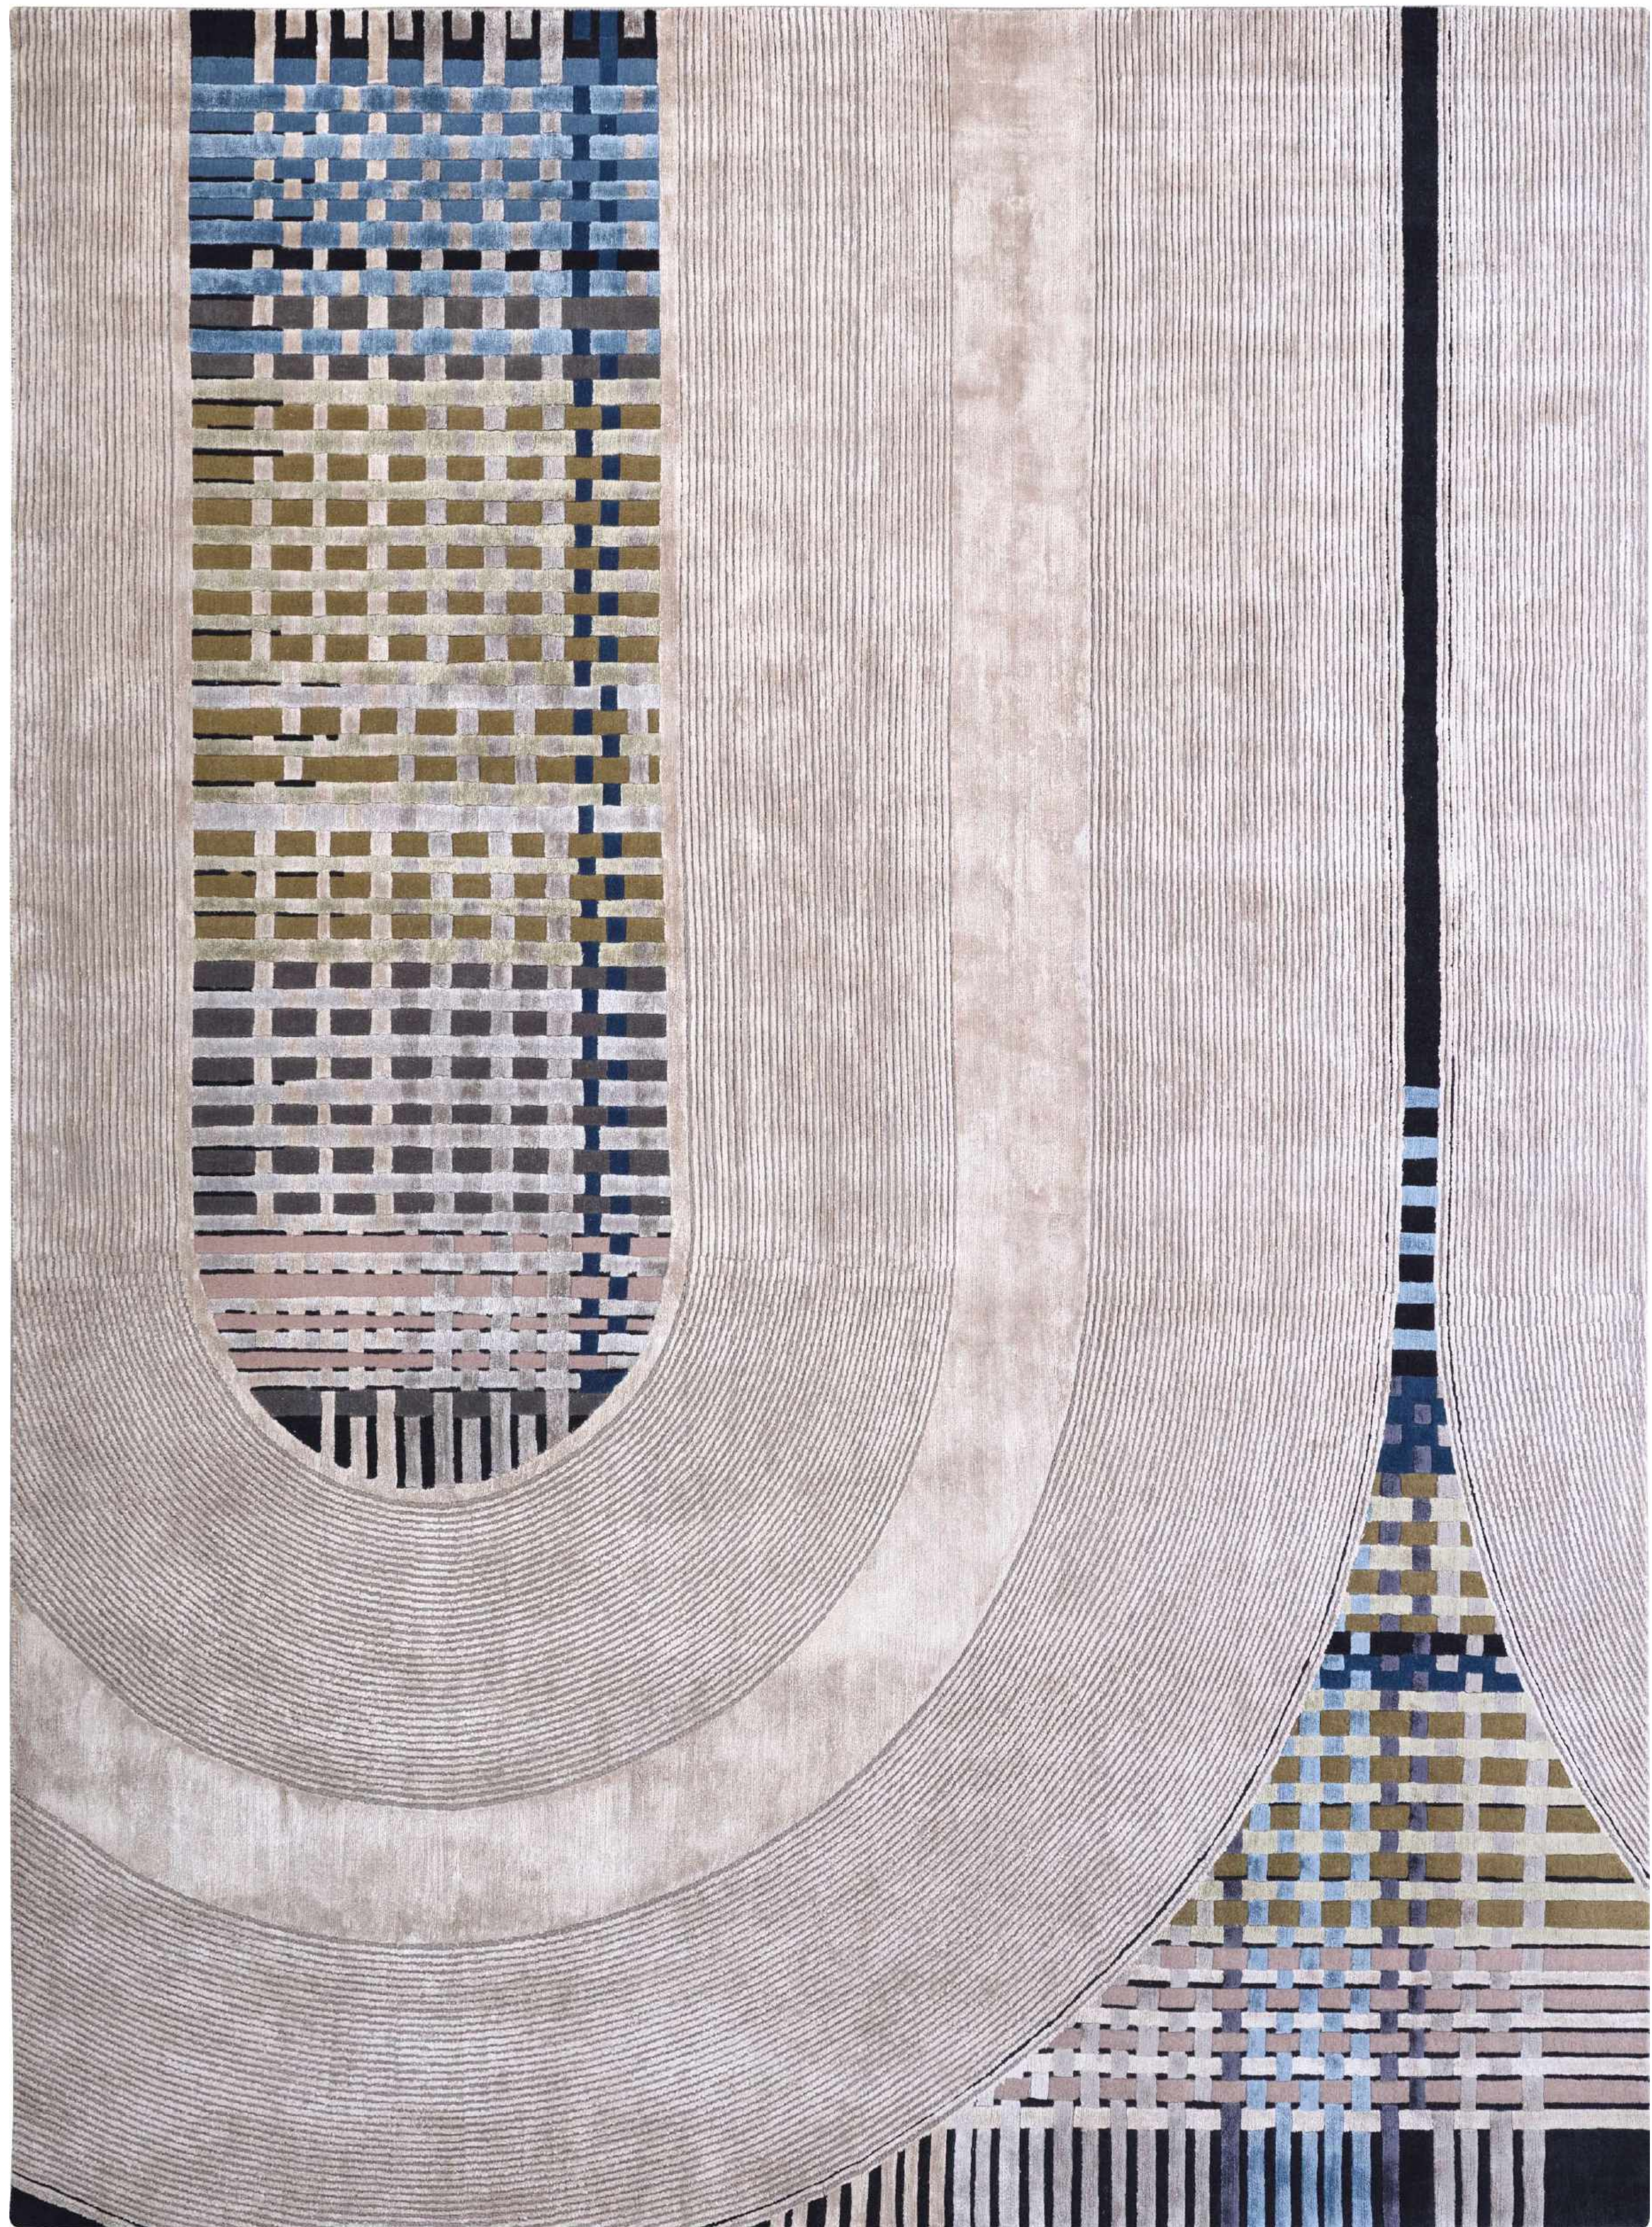

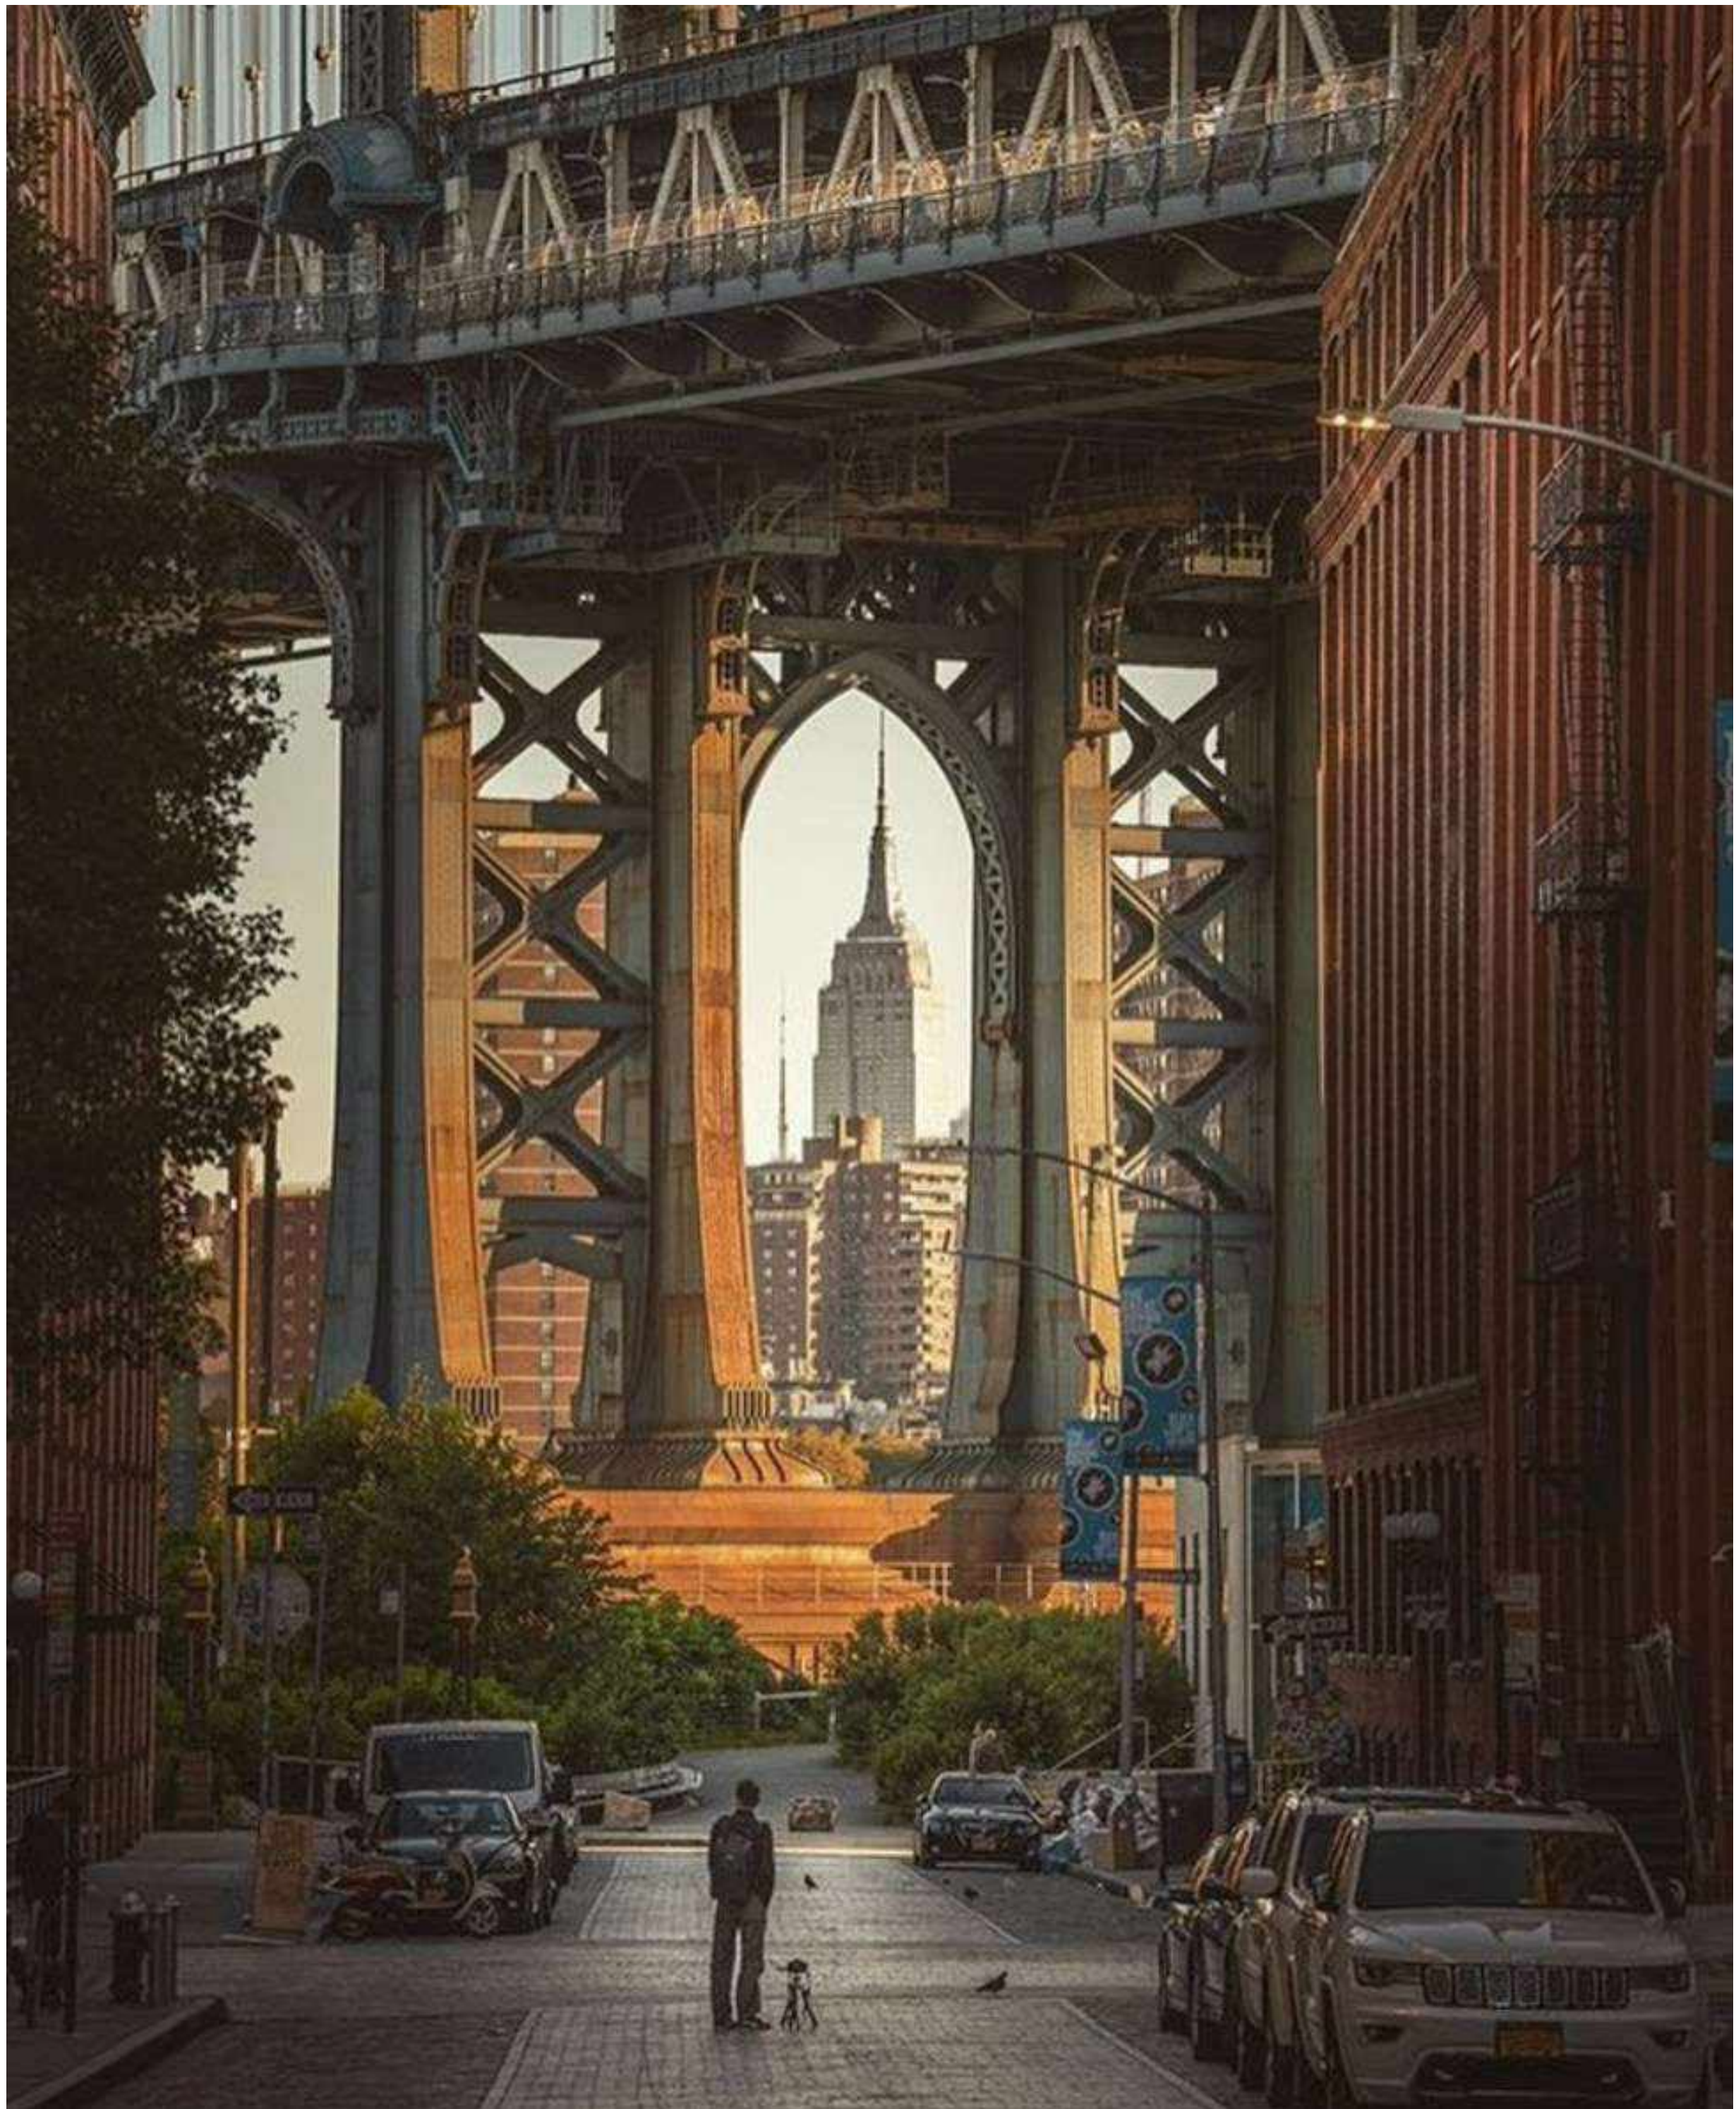

Carpets that accentuates the urban living, innovative designs with an emphasis on structures, shapes and forms of buildings.

### L'ORNEMENT

The collection is an ode to the most celebrated French art movement, Rococo. It is a feast for the eyes filled with romantic designs, dramatic patterns, ebullience and opulence. The carpets are very feminine with soft lines and sinuous designs and showcase high level of ornamentation which is symbolic of the Rococo era.

With whimsical design patterns, all the carpets have a certain delicacy and charm about them. Color effects are also very ravishing running from the pale shades of ivory, beige and taupe to the bold hues of silver and gold.

# FLUIDITY

FABULEUX

The details are delicate, flowy and charming and are also showcasing the asymmetry of the design patterns. The fluid and graceful movement of shapes through the design, utilization of serpentine curves are all making the details a work of art.

### GRAPHX

Since ancient times, there has been a deep interest in forms that are considered to incorporate within their intrinsic relationships and geometric proportions.

In our GraphX collection, the purpose of geometry of design is to reveal visual relationships, that have foundations in the essential qualities such as proportion and growth patterns.

### CRYPTOS

All around us, in our homes especially, there are codes, ciphers, and cryptic messages. We tend to miss them because we often don't know where to look. The Cryptos collection celebrates the curiosity and the sense of wonder that life evokes in its magical ways. With the designs shrouded in secrets, each carpet is an investigation into what could be hidden stories, with its origin rooted in mythology and history.

### FORMA

Shapes speak a language that has no singular translation. The Forma collection is an unconventional dialogue between the individual and the space, expressed through the reinterpretation of typical form. Breaking design tradition, the carpets take uncommon shapes and explore the paradox between the formal and the informal, the obvious and the hidden.

LITHOLOGY

Created by the forces of nature, the earth's surface moves against the flow of water and time, leaving a static memory of uncaptured geological beauty. Landforms on the surface of the earth, reimagined in an artistic dialect through our new hand tufted carpet collection.

# HANDS CARPETS

THE FINE TRADITION OF HAND WEAVING  
MEETS NEW-AGE INNOVATION

# BE SPOKE CARPETS

With design and production wholly inhouse, we custom make carpets in our own special way. Some of our finest carpet weavers bring to life designs that are created, not just for the space, but also for its owner. A carpet born out of a personal expression, a decor idea, or the freedoms and limitations of the space. All of this drives innovation, not only in design, but also in the making of the carpet.

HANDS CUSTOM MADE

**NATHAN OUTLAW AT AL MAHARA,

**DUBAI**

Whether it's a private residence, a royal palace, or a large hotel project, we produce carpets tailored to specific needs. Sizes, shapes, colours, and even, in some instances, materials can be modified to suit the need. The freedom to personalise a carpet, down to the very last detail.

**WE INSTALL CARPETS  
EVERYWHERE**

**INTERCONTINENTAL,**

**HONGKONG**

One special request came to us, for a prestigious waterfront hotel. The brief was unusual. A design that captured the waves left behind by a motorboat speeding across the water, with the colours of oil when sunlight bounced off its surface. The L-shaped carpet was large, spanning over 12 metres on either side.
