fine handmade carpets since 1881

In 2008, Wide-Eyed Magazine, the official publication of Coachella, featured the following lines in an article profiling Larry Roberts

Now at his openings art critics from the major magazines, dumbfounded, whisper to each other; "This is the abstract expressionist of our time."

... it is simply an opportunity for you to witness what I and many others believe is one of the greatest fine artists of our time in his natural environment...

The most impressive thing is the process in which it all comes to life: by hand, by tool, and by will.

ABOUT THE ARTIST

Larry Roberts was a visionary colourist from Chicago known for his abstract figurative, expressionist, and impressionist paintings. Self-taught, he had a unique style underlined by the genius use of acrylics, the brilliant, bold application of colour.

While working, he'd play the guitar, sketch, or write poetry while letting each artwork guide him. His art was driven by empathy, reflecting his deep concern for the world and was a means of therapy and expression.

His art is now immortalised in this eponymous collection by Hands.

LARRY ROBERTS COLLECTION

Hands carpets have always been expressions of 'art on the floor,' reflecting the timeless essence of luxury. The concept takes on new meaning in this collection, where the carpet designs are inspired by the original artworks of Larry Roberts. Each rug is made to order and meticulously handcrafted using the time-honoured techniques of hand knotting and hand tufting, passed down through generations. Made from New Zealand Wool and Mulberry Silk, the carpets in this collection possess the innate ability to capture the subtle interplay of light.
